I have always considered myself quick learner with excellent management and inter-personal skills.

8. Summary of my Activities and Future Plans

I consider teaching an honor and hope to continue doing so until I retire. The dynamic and interactive environment of the classroom presents renewed challenges and provides a great source of personal satisfaction and accomplishment. As English continues to play an increasingly important role in our students' ability to join the global economy we as educators will need to hone our abilities and creativity and provide them with the skills they need to excel. I have endeavored to renew and update my skill set continually by creating teaching materials and attending local professional conferences and departmental workshops on a regular basis which will undoubtedly continue. I take pride in being an active member of the Ruppin English Department since 2003.
