### **C. Summary of my Activities**

Alexander Manevich, Ph.D., is a clinical psychologist and senior faculty member in the Clinical Psychology of Adulthood and Aging Program at the Ruppin Academic Center. Additionally, he serves as a core faculty member of the International Laboratory for the Study of Loss, Bereavement, and Human Resilience at the School of Psychological Sciences, University of Haifa. His research examines the psychology of loss and bereavement, with particular emphasis on non-death losses, as well as on trauma, meaning-making, and adaptation to significant life changes.
